

get a *clear way* forwardSM

Republic Indemnity's Key Services

When you work with Republic Indemnity, you can rely on the skill and knowledge of long-tenured underwriters, claims adjusters and auditors. You can also count on us to make your life easier with the right combination of technology and in-house services to get you through every process seamlessly. Our key services include:

Underwriting

- Our experienced underwriters, who have a collaborative, people-first mind-set, understand the California marketplace and are empowered to make key decisions.

Claims

- We navigate all aspects of claims, from determining compensability to billing and utilization review to litigation.
- Our claims examiner workloads are monitored to ensure adequate time to effectively manage each claim.

Loss Control

- Our in-house loss control consultants work with employers onsite to identify and help minimize workplace hazards.
- Resources include illness and accident prevention programs, safety tools and a video library of safety courses online.
- Our safety app contains tips, guidelines and tools that are useful for all industries.

Premium Accounting

- Flexible billing plans include estimated structured installment plans, self-reporting monthly payroll options and Pay-As-You-Go integrating directly with a payroll provider for electronic payroll uploads.

Audit

- Paperless options include online billing invoices and notifications to report monthly payroll online when due. Get instant results as well as view and print audit statements as needed.

Website Access

Utilize our secure, leading-edge technology to manage your accounts.

- **Broker portal** – View In Force policies and renewals, submit applications, print loss runs, view commission reports, check policyholder payment and claims status, and more.
- **Policyholder portal** – View current and prior policies, report payroll, report claims, pull loss runs, check payment status, and pay premiums via credit card, electronic fund transfers or with our Pay-As-You-Go option.
