

Online Workplace Safety Training

Including LMS Course Topics and Video Courses

**Republic
Indemnity®**

get a *clear way* forward®

Online workplace safety training is available from Republic Indemnity!

We're offering you and your employees access to two powerful safety training tools: a Learning Management System (LMS) for more structured, trackable training, and workplace safety videos for quick, on-demand learning. This high-quality workplace safety training is applicable to all industries — from restaurants to manufacturing to medical facilities. It's a great time-saving alternative to in-person instruction!

Program features include:

- Over 500 LMS modules
- Over 700 streaming safety videos
- 24-hour access, 7 days a week
- Supports individual and classroom instruction
- Courses available in English and Spanish
- Downloadable end-of-course quizzes
- Completion certificates

Ready to boost workplace safety?

Scan to request access to free online safety videos and our Learning Management System (LMS) today!

Did you know?

Effective workplace safety training helps prevent work-related accidents? Fewer accidents improves productivity, employee morale and claims-related expenses.

Your Safety Journey Continues

Looking for more ways to strengthen your safety culture? In addition to online safety training, Republic Indemnity offers expert-led services and tools to help you proactively manage risk and prevent workplace incidents.

Loss History Review & Trend Analysis

Leverage data-driven insights to identify patterns, uncover root causes, and prioritize areas of concern—so you can take proactive steps before incidents occur.

Onsite Services & Expert Guidance

Get hands-on support from experienced consultants who assist with hazard assessments, accident investigations, safety walkthroughs, and supervisor training.

Ergonomic Solutions

Our consultants help identify and reduce ergonomic risks with AI-powered assessments, workstation and lifting evaluations, and tailored recommendations.

Customized Safety Program Development

Get help developing or refining your safety program with expert input and access to sample materials, safety posters, and downloadable resources specific to your industry.

RI Loss Control Safety App

Use our mobile app to document safety observations, access safety topics, and log training sessions—right from your phone.

Explore All of Your Safety Resources Today!

Visit RepublicIndemnity.com/Employers/Loss-Control or contact your Republic Indemnity Loss Control Representative to schedule a consultation and access downloadable safety materials. Register or login to the [Policyholder Portal](#) to explore your specific safety insights.
